Who We Are

SPIN Global is a Maryland-based small business founded in 2015 that provides management, scientific and technical consulting services. Our highly educated and skilled professionals focus on disaster resilience, risk reduction, crisis and emergency management in the private and public sectors and in communities.

We are moved by compassion to reduce physical, social, and economic suffering caused by disasters. We are committed to working together for a higher purpose with a spirit of excellence to create value for our clients and humanity while stewarding our people, planet, and profit.

Why We Exist

SPIN Global is a public benefit company that exists to disrupt disasters from neighborhoods to nations. We aspire to be one of the world's premier disaster consultancies, trusted to provide innovative solutions that tangibly and defensibly reduce risk and vulnerability to disasters.

Our Approach

Strategic Foresight. We listen to our client needs and provide navigational expertise to help them survive and thrive in uncertain conditions.

Public-Private Cooperation. We facilitate cooperation between private, public, and non-governmental organizations to connect unmet needs with resources.

Impact Innovation. We pioneer the creation of novel solutions that reduce disaster risk and vulnerability in the natural, social, built, economic, and cyber environments.

Neighborhoods and Nations. We tailor our approach to reflect the operating environment at any scale.

Featured Capabilities

Data-driven assessments before, during and after disasters

Institutional capacity building and regional security cooperation

Strategic consulting and program management services

Rapid response and recovery support

Universal risk reduction, resilience and emergency management services

Pre-disaster planning for all-hazards and incident types

Training and exercises to prepare neighborhoods and nations

What Makes Us Different

Our specific public benefits include:

- Promoting the advancement of disaster literacy, risk and vulnerability awareness, risk reduction, and readiness to respond in neighborhoods and nations; and
- Increasing the flow of capital to entities and projects that will reduce risk and vulnerability of people, infrastructure and systems.
